

COLLECTIVE VOICE

We utilise the power of the collective membership to ensure that legislators, regulators and policy makers are aware of how members contribute to public policy objectives.

PEER NETWORKING

We offer a nationwide platform to meet like minded peers. There is an ethos of open sharing and mutual support amongst fellow trusts, working in collaboration to serve common interests.

“ It is more of a ‘movement’ which brings together like minded people and organisations who are more than profit and who really want to involve and give back to local communities
