Dear Colleague

In follow up to the webinar call last week to re-establish our work with members, below are overarching details of our priority areas of work and planned next steps.

Please tell us how this looks to you? Any bullet points missing from under the priorities?

Hopefully you find these marry with the conversations and conclusions from the webinar, but if I have missed anything please let me know.

Areas of priority and next steps:

Exercise referral

- Webinar on exercise referral led by Abbeycroft Leisure and **keen for other members to share examples / stories**
- Keen to link in our Business Partner (org. sponsor) FutureFit Training who are developing new training qualifications to support ER
- Cate to organise date with Abbeycroft and share with members ASAP

Social prescribing

- Link with Association of Link Workers - they are keen to do a webinar or in person workshop with members all about Link Workers. Likely early 2020 due to their availability
- Scope workshop session for members and external partners in 2020 to discuss and share social prescribing, successes, challenges, opportunities etc
- Including a focus on adult social care services
- **Any members able to contribute and share the good and the learning?**

Engaging and building understanding of the changing NHS and public health landscape

- Engagement with the NHS England lead for the VCSE Programme Manager: scoping webinars with members on opportunities, changes, picture of the structures; importantly getting public leisure and culture recognised nationally; and supporting trusts to engage locally in the structures and get seats around the table.
- Sharing members' experiences of successfully engaging with STPs, Integrated Care Systems etc
- Workshops with members on supporting trust leaders to engage in the NHS and public health system: how to influence that space, how to get the trust and the leader known, and know who is important to engage with etc
- Progressing into workshops for members on how to approach these structures and how to write bids / commissions.

Sharing opportunities offered through Momenta

- Webinar being scheduled with Momenta for members in early winter time
- Members can dial in and then choose to engage in the opportunities or not

Holiday hunger focus

- Scope specific webinar with members to share experiences around the need to address holiday hunger.
- **Any members able to contribute and share the good and the learning?**

Maintaining national relationships to advocate and position trusts in the public health and social care space

- Continued engagement with LGA and WLGA
- Presence, exhibiting and presenting at LGA and WLGA conferences, public health conferences across England and Wales etc
- Continued links with Public Health England, and building with NHS England
- Seek relationship with NHS Wales
- Sharing opportunities through Change4Life campaigns etc
- Submitting to consultations e.g. 'Our Future Wales' consultation, Arts Council England strategy consultation etc.

Regards,

Cate
