## Gallagher welcomes CLUK members to their 'Beyond Today' virtual conference!

The last few years have seen unprecedented change with how we live, work and do business; shockwaves from global events continue to affect companies in the UK every day, especially leisure and cultural trusts.

With this in mind, Gallagher invites you to join them at their first online conference – Beyond Today – taking place on Thursday 5th October! This industry-leading event is designed to equip business leaders, like yourself, with the insight and knowledge required to keep up with the fast paced demands of business agility, success and growth.

### Key Session: Teams within Teams - The Road towards a Common Goal (10:30am)

As a leader within your trust, you'll appreciate that a lot can be learned from the way an elite or professional sports club manages its team and operations. Whether it be football, rugby or any other team sport, we can take certain practices and apply them to the way we look after our own star players and wider team.

In this session, Nathan Hines, former Scotland Rugby international, will provide a unique perspective on teamwork, and the value of individuals recognising their role within a team and working towards a common goal. He will also reflect on his career and the parallels we can take from rugby into business.

This exciting session is suited to business leaders who want to develop and empower their teams and to anyone involved in managing employees.

In addition to Nathan's session, the event is packed with numerous sessions covering business critical topics such as social value, mergers & acquisitions and employee value that you can join. Plus, the conference will culminate with an elite keynote speaker looking at how you can effect positive change in your business – further details to be released soon!

Spaces for this event are limited, so, make sure you secure your place today before it's too late...
